National Slag Association

National Slag Association Safety Committee Communication Covid-19 Site Visitation Requirements (for Allied Members)

Background

Due to the ongoing global pandemic, the NSA Safety Committee has drafted the following minimum requirements for entry by visitors to all member site locations. It is important to note that these are minimum requirements and individual locations may have additional protocols that will need to be adhered to. Please confirm with your authorized contact **prior** to your site visit.

Prior to the Site Visit

- All site visits need to be pre-approved by an authorized site contact.
- Site visitors may be required to complete pre-approval paperwork prior to their site visit.

NOTE – That if you have had close contact with a Covid-19 positive person in the 14 days prior to the visit or are experiencing any Covid-19 related symptoms you will not be permitted to enter the site.

During the Site Visit

- Each day prior to the entering the site a personal health screen shall be completed. If the visitor is experiencing an elevated temperature and/or any symptoms related to Covid-19 the visitor shall not travel to or attempt to enter the site.
 - *NOTE – Individual locations may require an additional health screening prior to entry onsite.*
- All visitors will be required to sign in with the authorized site contact upon arrival at the site.
- Appropriate face coverings shall always be properly worn while onsite.
- Physical distancing (i.e. > 6') shall be maintained at all times while onsite.
- Proper hygiene shall be maintained by all visitors including frequent hand washing and the use of liquid sanitizers.

Following Site Visit (72 hours)

- If the visitor experiences an elevated temperature and/or any symptom related to Covid-19 within 72 hours of leaving the site, the visitor shall contact the site. The information will be important if the visitor becomes Covid-19 positive and will help support local contact tracing if needed.

NOTE – Individual companies and sites may have additional requirements beyond what is included above. Please inquire with your site contact.
